DM HALL
CHARTERED SURVEYORS

Energy Performance Certificate (EPC)

Scotland

Dwellings

FLOWERBURN, TRADESPARK ROAD, NAIRN, IV12 5NF

Dwelling type: Detached bungalow
Date of assessment: 29 October 2021
Date of certificate: 03 November 2021
Total floor area: 154 m²
Primary Energy Indicator: 194 kWh/m²/year

Reference number: 1519-4420-1109-0461-3226
Type of assessment: RdSAP, existing dwelling
Approved Organisation: Elmhurst
Main heating and fuel: Boiler and radiators, oil

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*	£3,741	See your recommendations report for more information
Over 3 years you could save*	£648	

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Very energy efficient - lower running costs

Not energy efficient - higher running costs

Current	Potential
66	79

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band D (66)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Very environmentally friendly - lower CO₂ emissions

Not environmentally friendly - higher CO₂ emissions

Current	Potential
59	72

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band D (59)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Floor insulation (suspended floor)	£800 - £1,200	£342.00
2 Low energy lighting	£85	£168.00
3 Solar water heating	£4,000 - £6,000	£138.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit greenerscotland.org or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Cavity wall, filled cavity	★★★★☆	★★★★☆
	Timber frame, as built, insulated (assumed)	★★★★★	★★★★★
Roof	Pitched, 270 mm loft insulation	★★★★☆	★★★★☆
Floor	Suspended, no insulation (assumed)	—	—
	Suspended, insulated (assumed)	—	—
Windows	Fully double glazed	★★★★☆	★★★★☆
Main heating	Boiler and radiators, oil	★★★☆☆	★★★★☆
Main heating controls	Programmer, room thermostat and TRVs	★★★★☆	★★★★☆
Secondary heating	Room heaters, dual fuel (mineral and wood)	—	—
Hot water	From main system	★★★☆☆	★★★☆☆
Lighting	Low energy lighting in 37% of fixed outlets	★★★☆☆	★★★☆☆

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 49 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 7.6 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 2.1 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£2,817 over 3 years	£2,514 over 3 years	
Hot water	£426 over 3 years	£273 over 3 years	
Lighting	£498 over 3 years	£306 over 3 years	
Totals	£3,741	£3,093	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Floor insulation (suspended floor)	£800 - £1,200	£114		
2 Low energy lighting for all fixed outlets	£85	£56		
3 Solar water heating	£4,000 - £6,000	£46		
4 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£302		

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work so it is best to check with your local authority building standards department.

2 Low energy lighting

Replacement of traditional light bulbs with energy saving bulbs will reduce lighting costs over the lifetime of the bulb, and they last many times longer than ordinary light bulbs. Low energy lamps and fittings are now commonplace and readily available. Information on energy efficiency lighting can be found from a wide range of organisations, including the Energy Saving Trust (<http://www.energysavingtrust.org.uk/home-energy-efficiency/lighting>).

3 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

4 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present: There are none provided for this home

Your home's heat demand

You could receive Renewable Heat Incentive (RHI) payments and help reduce carbon emissions by replacing your existing heating system with one that generates renewable heat and, where appropriate, having your loft insulated and cavity walls filled. The estimated energy required for space and water heating will form the basis of the payments. For more information go to www.energysavingtrust.org.uk/scotland/rhi.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	18,488	N/A	N/A	N/A
Water heating (kWh per year)	2,979			

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. Colin MacGregor
Assessor membership number:	EES/007937
Company name/trading name:	D M Hall Chartered Surveyors LLP
Address:	Ardross House 3 Ardross Terrace Inverness IV3 5NQ
Phone number:	01463241077
Email address:	enquiries@dmhall.co.uk
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greener-scotland.org](https://www.greener-scotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

SINGLE SURVEY

DM HALL
CHARTERED SURVEYORS

Single Survey

survey report on:

Property address	FLOWERBURN TRADESPARK ROAD NAIRN IV12 5NF
Customer	Jane Rhodes & Alison Kerr
Customer address	Flowerburn Tradespark Road Nairn IV12 5NF
Prepared by	DM Hall LLP
Date of inspection	29th October 2021

PART 1 - GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report and a generic Mortgage Valuation Report for Lending Purposes. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

The Surveyors are authorised to provide a transcript or retype of the generic Mortgage Valuation Report on to Lender specific pro-forma. Transcript reports are commonly requested by Brokers and Lenders. The transcript report will be in the format required by the Lender but will contain the same information, inspection date and valuation figure as the generic Mortgage Valuation Report and the Single Survey. The Surveyors will decline any transcript request which requires the provision of information additional to the information in the Report and the generic Mortgage Valuation Report until the Seller has conditionally accepted an offer to purchase made in writing.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report and generic Mortgage Valuation Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report and generic Mortgage Valuation Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property¹.

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box. ☒

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

To date, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in the expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

¹ Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

Terms and Conditions

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions. The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to:-

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 GENERIC MORTGAGE VALUATION REPORT

The Surveyors undertake to the Seller that they will prepare a generic Mortgage Valuation Report, which will be issued along with the Single Survey. It is the responsibility of the Seller to ensure that the generic Mortgage Valuation Report is provided to every potential Purchaser.

1.5 TRANSCRIPT MORTGAGE VALUATION FOR LENDING PURPOSES

The Surveyors undertake that on being asked to do so by a prospective purchaser, or his/her professional advisor or Lender, they will prepare a Transcript Mortgage Valuation Report for Lending Purposes on terms and conditions to be agreed between the Surveyors and Lender and solely for the use of the Lender and upon which the Lender may rely. The decision as to whether finance will be provided is entirely a matter for the Lender. The Transcript Mortgage Valuation Report² will be from information contained in the Report and the generic Mortgage Valuation Report.

² Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct

1.6 INTELLECTUAL PROPERTY

All intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.7 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.8 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection.

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.9 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.10 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Transcript Mortgage Valuation Report for Lending Purposes" means a separate report, prepared by the Surveyor, prepared from information in the Report and the generic Mortgage Valuation Report, but in a style and format required by the Lender. The Transcript Mortgage Valuation Report for Lending Purposes will be prepared with the skill and care reasonably to be expected from a surveyor who is a member of the Royal Institution of Chartered Surveyors and who is competent to survey, value and report on the Property;
- the "Generic Mortgage Valuation Report" means a separate report, prepared by the Surveyor from information in the Report but in the Surveyor's own format;

- the "Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property;
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member or partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

PART 2 - DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company. In addition, the Surveyor has agreed to supply a generic Mortgage Valuation Report.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyor's opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

1. Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.
2. Category 2: Repairs or replacement requiring future attention, but estimates are still advised.
3. Category 1: No immediate action or repair is needed.

WARNING:

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable.

Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

"Market Value" is the estimated amount for which a property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. In arriving at the opinion of the Market Value, the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc. from the valuation. In the case of flats, the following further assumptions are made that:

- There are rights of access and exit over all communal roadways, corridors, stairways etc. and to use communal grounds, parking areas, and other facilities;
- There are no particularly troublesome or unusual legal restrictions;
- There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on the fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.

Single Survey

1. Information and scope of inspection

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without moving any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right in a description of the exterior of the property refer to the view of someone standing facing that part of the property from the outside.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. will not be inspected or reported on.

Description	Split level detached bungalow.
Accommodation	GROUND FLOOR:- Two Bedrooms with En-Suite Shower Rooms, Bedroom Three with En-Suite Bathroom, Two Further Bedrooms, Living Room, Utility Room, Kitchen/Dining Area and Conservatory.
Gross internal floor area (m²)	161 square metres approximately.
Neighbourhood and location	<p>The property is situated in an established residential on the outskirts of Nairn. Local amenities and facilities are readily available.</p> <p>The fields to the rear of the property are zoned for planning.</p>
Age	Circa 1980.
Weather	Dull and overcast.
Chimney stacks	<p>Visually inspected with the aid of binoculars where appropriate.</p> <p>The chimney stacks are of rendered blockwork construction having metal flashings.</p>
Roofing including roof space	<p>Sloping roofs were visually inspected with the aid of binoculars where appropriate.</p> <p>Roof spaces were visually inspected and were entered where there was safe and reasonable access, normally defined as being from a 3m ladder within the property.</p> <p>If this is not possible, then physical access to the roof space may be taken by other means if the Surveyor deems it safe and reasonable to do so.</p>

Single Survey

	<p>The roofs are of pitched design clad with tiles having tiled ridging.</p> <p>The main roof space is accessed via a ceiling hatch in the hallway cupboard and the extension roof space is accessed via a ceiling hatch in the left hand bedroom.</p> <p>The main roof is timber framed with timber sarking. The extension roof is timber framed with plyboard sarking.</p> <p>Glasswool insulation has been laid to ceiling joists.</p>
Rainwater fittings	<p>Visually inspected with the aid of binoculars where appropriate.</p> <p>Gutters and downpipes are of round and half round design and are formed in uPVC.</p>
Main walls	<p>Visually inspected with the aid of binoculars where appropriate.</p> <p>Foundations and concealed parts were not exposed or inspected.</p> <p>The main walls are of 310mm rendered cavity concrete blockwork construction. There is pointed reconstituted stonework detailing. Cavity wall insulation has been injected.</p> <p>The extensions are of 335mm cavity timber frame construction with outer leafs of rendered concrete blockwork.</p>
Windows, external doors and joinery	<p>Internal and external doors were opened and closed where keys were available.</p> <p>Random windows were opened and closed where possible.</p> <p>Doors and windows were not forced open.</p> <p>Windows are of double glazed uPVC design.</p> <p>The front access door is of uPVC design with a double glazed insert. There is a composite door with a double glazed insert. There is a PVC framed external door with a double glazed insert. There are double glazed uPVC framed French windows.</p> <p>Soffits and fascias are formed in uPVC.</p>
External decorations	Not applicable.
Conservatories / porches	<p>Visually inspected.</p> <p>The conservatory is contained under a triplex roof and has double glazed uPVC windows. The dwarf walls appear to be of cavity timber frame construction with an outer leaf of rendered concrete blockwork.</p>

Single Survey

Communal areas	Not applicable.
Garages and permanent outbuildings	<p>Visually inspected.</p> <p>There is a detached single car garage of rendered concrete blockwork construction. This is contained under a flat felt roof.</p> <p>There is a timber shed contained under a profile metal roof.</p> <p>There is a timber shed. There is an external WC.</p>
Outside areas and boundaries	<p>Visually inspected.</p> <p>The front garden is laid with chips. The driveways are laid with tarmacadam.</p> <p>The rear garden contains a patio area and is mainly laid with grass containing shrubbery and trees.</p> <p>Boundaries are defined by stone and blockwork wall, timber post and panel fencing, timber post and rail fencing and timber post and wire fencing.</p>
Ceilings	<p>Visually inspected from floor level.</p> <p>Ceilings have been lined with plasterboard.</p>
Internal walls	<p>Visually inspected from floor level.</p> <p>Using a moisture meter, walls were randomly tested for dampness where considered appropriate.</p> <p>Internal walls and partitions are of timber stud lined with plasterboard.</p>
Floors including sub floors	<p>Surfaces of exposed floors were visually inspected. No carpets or floor coverings were lifted.</p> <p>Flooring in the main house is of suspended timber design overlaid with tongue and grooved boarding. Flooring in the extension appears to be of floating timber design overlaid with chipboard. Flooring in the conservatory is of solid concrete design.</p>
Internal joinery and kitchen fittings	<p>Built-in cupboards were looked into but no stored items were moved.</p> <p>Kitchen units were visually inspected excluding appliances.</p> <p>Interior doors are of timber panel design. Some internal doors have glazed inserts.</p> <p>The kitchen has a range of floor mounted units.</p>

Single Survey

Chimney breasts and fireplaces	<p>Visually inspected.</p> <p>No testing of the flues or fittings was carried out.</p> <p>There is a multi fuel stove in the living room.</p>
Internal decorations	<p>Visually inspected.</p> <p>Wall and ceiling surfaces are paint finished.</p>
Cellars	<p>Not applicable.</p>
Electricity	<p>Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.</p> <p>Mains supply with the meter and consumer unit located in the hall cupboard.</p>
Gas	<p>Not applicable.</p>
Water, plumbing, bathroom fittings	<p>Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>Mains water supply. Two of the en-suites comprise shower cubicle, WC and wash hand basin. The bathroom and third en-suite comprise bath with shower above, WC and wash hand basin.</p>
Heating and hot water	<p>Accessible parts of the system were visually inspected apart from communal systems, which were not inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>There is a floor mounted Grant oil fired boiler located in the utility room cupboard. This is connected to steel panel radiators distributed throughout the property.</p> <p>There is electric underfloor heating in the en-suites.</p> <p>There is a prelagged hot water tank situated in the utility room cupboard. This is connected to the central heating boiler and also has a separate electric immersion heater.</p>

Single Survey

Drainage	<p>Drainage covers etc. were not lifted.</p> <p>Neither drains nor drainage systems were tested.</p> <p>Drainage is to a private septic tank.</p>
Fire, smoke and burglar alarms	<p>Visually inspected.</p> <p>No tests whatsoever were carried out to the system or appliances.</p> <p>A fire and smoke alarm system has been installed.</p>
Any additional limits to inspection	<p>Parts of the property, which are covered, unexposed or inaccessible, cannot be guaranteed to be free from defect.</p> <p>I have not carried out an inspection for Japanese Knotweed and unless otherwise stated, for the purposes of the valuation I have assumed that there is no Japanese Knotweed or other invasive plants within the boundaries of the property or in neighbouring properties.</p> <p>The report does not include an asbestos inspection. However asbestos was widely used in the building industry until around 2000, when it became a banned substance. If the possibility of asbestos based products has been reported within the limitations of the inspection and you have concerns you should engage a qualified asbestos surveyor.</p> <p>Random testing for dampness was undertaken internally with the use of a moisture meter where accessible and considered appropriate.</p> <p>The property was occupied, fully furnished and all floors were covered. Floor coverings restricted my inspection of flooring.</p> <p>In accordance with Health and Safety guidelines I have not disturbed insulation, furniture or personal effects (particularly in cupboards). Floor coverings have not been moved.</p> <p>Personal effects in cupboards and fitted wardrobes were not moved and restricted my inspection.</p> <p>My physical inspection of the roof void area was restricted due to insulation material, stored items and lack of suitable crawl boards. As a result the roof void area was only viewed from the access hatch in the extension and the floor areas in the main roof space.</p> <p>I was not able to inspect the sub floor area.</p> <p>Concealed areas beneath and around bath/shower trays were not visible. Water spillage in these areas can often be discovered unexpectedly with resultant damage to concealed parts of the fabric.</p> <p>The inspection is not a fire or life safety risk assessment and should not be relied on as a risk assessment inspection. Further advice should be sought if a specific risk assessment of the property and building that it forms part of is required.</p>

Single Survey

	Where repairs are required at height compliance with Health and Safety legislation often requires the use of scaffolding which can significantly impact on the cost of repair. Pricing repairs is out with the remit of this report but it would be prudent to consider costs and budgeting before offering. The various trades can advise further.

Sectional Diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these items.

Single Survey

2. Condition

This section identifies problems and tells you about the urgency of any repairs by using one of the following three categories:

Category 3	Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.	Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.

 Structural movement	
Repair category	1
Notes	No obvious evidence of significant movement noted within the limitations of my inspection.

 Dampness, rot and infestation	
Repair category	1
Notes	No obvious evidence of significant dampness, rot or wood boring insect infestation.

 Chimney stacks	
Repair category	2
Notes	Rendering to the rear stack is cracked. A contractor will be able to advise on the necessary repairs. The seller has advised that this is to be repaired prior to sale.

 Roofing including roof space	
Repair category	2
Notes	<p>There is evidence of mildew in the extension roof space. This may be alleviated through improved loft ventilation. A firm of damp specialists/roofing contractors will be able to provide further advice.</p> <p>There is historic staining to timbers adjacent to the front chimney stack.</p> <p>There is some moss growth to roof pitches.</p>

Single Survey

Rainwater fittings

Repair category	1
Notes	No significant defects evident.

Main walls

Repair category	2
Notes	<p>The base course rendering of outer walls is delaminating in places and can be repaired or replaced by a competent local builder.</p> <p>There is an open drill hole below the kitchen window. The seller has advised that this is to be filled prior to sale.</p>

Windows, external doors and joinery

Repair category	1
Notes	No significant defects evident.

External decorations

Repair category	-
Notes	Not applicable.

Conservatories/porches

Repair category	1
Notes	No significant defects evident.

Communal areas

Repair category	-
Notes	Not applicable.

Garages and permanent outbuildings

Repair category	2
Notes	The flat bitumen felt roof covering to the garage has a limited life expectancy and can fail without warning. There is ponding to the roof. Inspection at close quarters may reveal further deterioration/damage to roofing materials, especially where these are original. A reputable roofing contractor will be able to provide further advice.

Single Survey

	<p>A multi fuel stove has been installed in the summer house. It is assumed that the installation complies with the Building Standards.</p> <p>Flues should ideally be swept and tested on an annual basis.</p> <p>The seller has advised that the external WC has its waste collected. You should satisfy yourself that this complies with any relevant SEPA regulations.</p>
--	--

Outside areas and boundaries

Repair category	1
Notes	<p>There is a burn in the garden grounds which may represent a health and safety issue.</p> <p>There is open pointing to stone walling.</p> <p>There is decayed fencing.</p>

Ceilings

Repair category	1
Notes	<p>The textured finishes may contain asbestos based material. See information on Asbestos in the Limitations of Inspection section above.</p> <p>There is general shrinkage cracking.</p>

Internal walls

Repair category	1
Notes	No significant defects evident.

Floors including sub-floors

Repair category	1
Notes	<p>No significant defects evident.</p> <p>It is not unusual to discover areas of past water spillage when floor coverings are removed in kitchen and bathroom compartments, revealing the need for further repair and maintenance work.</p>

Internal joinery and kitchen fittings

Repair category	2
Notes	Glazed inserts to interior doors may not be of appropriate toughened glass or meet the recognised Building Standards.

Single Survey

Chimney breasts and fireplaces

Repair category	1
Notes	<p>A multi fuel stove has been installed in the living room. It is assumed that the installation complies with the Building Standards.</p> <p>Flues should ideally be swept and tested on an annual basis.</p>

Internal decorations

Repair category	1
Notes	No significant defects evident.

Cellars

Repair category	-
Notes	Not applicable.

Electricity

Repair category	1
Notes	<p>It is recommended that all electrical installations be checked every five years or on change of ownership to keep up to date with frequent changes in Safety Regulations. Further advice will be available from a qualified NICEIC/ SELECT registered Contractor. It should be appreciated that only recently constructed or rewired properties will have installations which fully comply with IEE regulations.</p>

Gas

Repair category	-
Notes	Not applicable.

Water, plumbing and bathroom fittings

Repair category	1
Notes	No significant defects evident.

Heating and hot water

Repair category	2
Notes	<p>It is unlikely that the position of the oil tank will comply with current Building Regulations as it is adjacent to combustible materials.</p>

Single Survey

	<p>We are unaware if the flue complies with relevant regulations as it is in contact with timbers.</p> <p>It is assumed that the heating and hot water systems have been properly serviced and maintained on a regular basis and installed in accordance with the relevant regulations.</p> <p>Boilers and central heating systems should be tested and serviced by an Oftec oil registered engineer on an annual basis to ensure their safe and efficient operation.</p>
--	---

Drainage

Repair category	1
Notes	It is assumed that the septic tank is registered with SEPA. Regular inspection and maintenance should be anticipated.

Single Survey

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the previous comments for detailed information.

Structural movement	1
Dampness, rot and infestation	1

Cellars	-
Electricity	1
Gas	-
Water, plumbing and bathroom fittings	1
Heating and hot water	2
Drainage	1

Category 3

Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

Category 2

Repairs or replacement requiring future attention, but estimates are still advised.

Category 1

No immediate action or repair is needed.

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

Single Survey

3. Accessibility information

Guidance notes on accessibility information

Three steps or fewer to a main entrance door of the property:

In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres:

For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Ground
2. Are there three steps or fewer to a main entrance door of the property?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
3. Is there a lift to the main entrance door of the property?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
4. Are all door openings greater than 750mm?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
5. Is there a toilet on the same level as the living room and kitchen?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
6. Is there a toilet on the same level as a bedroom?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
7. Are all rooms on the same level with no internal steps or stairs?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>

4. Valuation and conveyancer issues

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated reinstatement cost for insurance purposes.

Matters for a solicitor or licensed conveyancer

The property has been extended twice circa 2011. A summer house has been erected in the garden grounds along with an external WC. It is assumed all necessary Local Authority and other consents have been obtained for alterations and the appropriate documentation, including Building Warrants and Completion Certificates issued. If any works did not require consent then it is assumed they meet the standards required by the Building Regulations or are exempt.

Drainage is to a septic tank. It is assumed that the tank is registered with SEPA. The position regarding age, location, condition and maintenance history should be clarified.

Estimated reinstatement cost for insurance purposes

£370,000 (THREE HUNDRED AND SEVENTY THOUSAND POUNDS).

It should be noted this sum is an estimate calculated by using a rate per square metre based on information provided by Building Cost Information Service (BCIS).

Valuation and market comments

£350,000 (THREE HUNDRED AND FIFTY THOUSAND POUNDS).

The local market has been extremely buoyant since the easing of lockdown restrictions as a result of the Covid 19 Pandemic in 2020. This surge in demand has resulted in increases in house prices generally across all sectors of the market. Whilst the valuation opinion reflects these conditions, it is not possible to predict how the market will react in the coming months and an increased supply of available property may soften price levels generally.

PROPERTY QUESTIONNAIRE

DM HALL
CHARTERED SURVEYORS

property questionnaire

Property Address	Flowerburn Tradespark Road Nairn IV12 5NF
-------------------------	--

Seller(s)	L.Rhodes, A.Kerr
------------------	------------------

Completion date of Property Questionnaire	26/10/21
--	----------

Note for sellers

- Please complete this form carefully. It is important your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell your solicitor or estate agent immediately.

Information to be given to prospective buyer(s)

property questionnaire

1. Length of Ownership

How long have you owned the property?
20years

2. Council Tax

Which Council Tax band is your property in?

- ☐ A
- ☐ B
- ☐ C
- ☐ D
- ☐ E
- ☒ F
- ☐ G
- ☐ H

3. Parking

What are the arrangements for parking at your property?

property questionnaire

4.	Conservation area	
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	No
5.	Listed buildings	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	No
6.	Alterations/Additions/Extensions	
a.	<p>(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example provision of an extra bath/shower room, toilet or bedroom)?</p> <p>If you have answered <u>yes</u>, please describe below the changes which you have made:</p> <p>Extension to side of house to make new bedroom with en-suite. En-suite added to already existing bedroom</p> <p>(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work?</p> <p>If you have answered <u>yes</u>, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking. If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them.</p>	<p>Yes</p> <p>Yes</p>
b.	<p>Have you had replacement windows, doors, patio doors or double-glazing installed in your property? If you have answered yes, please answer the three questions below:</p> <p>(i) Were the replacements the same shape and type as the ones you replaced?</p> <p>(ii) Did this work involve any changes to the window or door openings?</p> <p>(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):</p> <p>Old wooden windows changed to new UPVC double glazing, completed 2006.</p>	<p>Yes</p> <p>No</p> <p>No</p>
7.	Central heating	

property questionnaire

	<p>Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property — the main living room, the bedroom(s), the hall and the bathroom).</p> <p><u>If you have answered yes or partial</u> – what kind of central heating is there?</p> <p>Oil fired Central Heating</p> <p>(examples: gas-fired, solid fuel, electric storage heating, gas-warm air).</p> <p>If you have answered yes, please answer the three questions below:</p>	<p>Yes</p>
	<p>(i) When was your central heating system or partial central heating system installed?</p> <p>2010</p> <p>(ii) Do you have a maintenance contract for the central heating system?</p> <p>If you have answered yes, please give details of the company with which you have a maintenance contract:</p> <p>(iii) When was your maintenance agreement last renewed? (Please provide the month and year).</p>	<p>No</p>
8.	<p>Energy Performance Certificate</p>	
	<p>Does your property have an Energy Performance Certificate, which is less than 10 years old?</p>	<p>No</p>
9.	<p>Issues that may have affected your property</p>	
a.	<p>Has there been any storm, flood, fire or other structural damage to your property while you have owned it?</p> <p><u>If you have answered yes</u>, is the damage the subject of any outstanding insurance claim?</p>	<p>No</p> <p>N/A</p>
b.	<p>Are you aware of the existence of asbestos in your property?</p> <p><u>If you have answered yes</u>, please give details:</p>	<p>No</p>
10.	<p>Services</p>	

property questionnaire

a.	<p>Please tick which services are connected to your property and give details of the supplier:</p> <table border="1"> <thead> <tr> <th>Services</th> <th>Connected</th> <th>Supplier</th> </tr> </thead> <tbody> <tr> <td>Gas or liquid petroleum gas</td> <td><input type="checkbox"/></td> <td></td> </tr> <tr> <td>Scottish Water</td> <td></td> <td></td> </tr> <tr> <td>Water mains or private water supply</td> <td><input checked="" type="checkbox"/></td> <td></td> </tr> <tr> <td>Octopus Energy</td> <td></td> <td></td> </tr> <tr> <td>Electricity</td> <td><input checked="" type="checkbox"/></td> <td></td> </tr> <tr> <td>Mains drainage</td> <td><input type="checkbox"/></td> <td></td> </tr> <tr> <td>B.T.</td> <td></td> <td></td> </tr> <tr> <td>Telephone</td> <td><input checked="" type="checkbox"/></td> <td></td> </tr> <tr> <td>Cable TV or satellite</td> <td><input type="checkbox"/></td> <td></td> </tr> <tr> <td>B.T</td> <td></td> <td></td> </tr> <tr> <td>Broadband</td> <td><input checked="" type="checkbox"/></td> <td></td> </tr> </tbody> </table>	Services	Connected	Supplier	Gas or liquid petroleum gas	<input type="checkbox"/>		Scottish Water			Water mains or private water supply	<input checked="" type="checkbox"/>		Octopus Energy			Electricity	<input checked="" type="checkbox"/>		Mains drainage	<input type="checkbox"/>		B.T.
